

Human Bingo

How to play Human Bingo

1. Give each child a Bingo card.
2. Explain that they have 30 minutes to mingle and find people who match the traits on the card. Each box must have a different person.
3. They must put the **person's name** in the corresponding box or have the person sign the appropriate square.
4. The first person to fill five boxes across or down yells "Bingo!" and the game is over.
5. The game could continue until someone has completed all the boxes and shouts "Full House".

There are a range of Bingo cards - select one that fits your class best.

It is recommended that the adults in the classroom join in too.
