## READING

Faster than fairies, faster than witches,  
Bridges and houses, hedges and ditches;  
And charging along like troops in a  
battle,  
All through the meadows the horses and  
cattle:  
All of the sights of the hill and the plain  
Fly as thick as driving rain;  
And ever again, in the wink of an eye,  
Painted stations whistle by.

## READING QUESTIONS

**READING**

Before an eruption the volcano's magma chamber fills with molten rock. Magma rises because of the movement of tectonic plates. The magma contains bubbles of gas which grow larger, as a result the pressure inside the chamber increases therefore causing the volcano erupt. Hot magma is forced out of the volcano and lands on the ground beneath.

The gas in the magma is released into the atmosphere as the hot molten rock changes into lava. The lava spreads over the ground, as it spreads it cools and becomes solid creating igneous rocks.

**READING QUESTIONS**

1. What is a suitable subtitle for these 2 paragraphs?
2. Where are bubbles of gas contained?
3. Find a synonym for 'becomes greater'.
4. What does the hot molten rock change into?
5. How does lava become igneous rock?
6. List 5 words that you would include in a glossary.
